13. Professional experience:

Date from - Date to	Location	Company	Position	Description
02/2025 – date	Remotely	GIZ / ICON Institute	Team Leader	<p>Team leader of the Environmental, Social and Governance compliance project for tanneries in the SADC region, focussing on four countries, i.e. Namibia, Zambia, Zimbabwe and Madagascar. The project is part of GIZ's larger CESARE (Cooperation for the Enhancement of SADC Regional Economic Integration) programme, and implemented by ICON Institute. The project contributes to increasing the capacities of selected tanneries and their compliance to international Environmental, Social and Governance standards.</p> <p>The position is intermittent and home-based for 15% of the time, managing a team of an international and a regional expert who support the tanneries on-site. Responsibilities include overall project management, establishing and applying a monitoring and quality assurance systems for activities and deliverables, client relations, and reporting.</p> <p><i>GIZ is a federally-owned enterprise that supports the German Government in achieving its objectives in the field of international cooperation for sustainable development. GIZ mandated ICON Institute Consulting Group to implement this component of the overall programme (www.icon-institute.de)</i></p>
05/2023 – 04/2025	Dhaka, Bangladesh	GIZ / ICON Institute	Team Leader	<p>Team Leader of the "OHS in the tannery sector in Bangladesh" component of the "Good Working Conditions in Tanneries" project, which is implemented by ICON Institute Consulting Group, and is part of the Textile Industry Cluster Programme of GIZ in Bangladesh. The project includes two components: 1) developing a comprehensive market system for OHS training and advisory services, meeting the demand of tanneries, and 2) supporting higher education institutions in their leather-sector relevant OHS curriculum and trainers' capacity development.</p> <p>Responsible for the project design and implementation of a sustainable OHS market system including chemical and energy management. Managing national experts and a pool of short-term international and national consultants. Cooperating with multiple stakeholders, including two major business associations in the tannery sector, two universities, and a group of private and public training and service providers. The market systems development (MSD) approach contributes to the accelerated adaptation of OHS measures in tanneries, strengthening their international competitiveness. The position is intermittent for 75% of the time, based in Bangladesh.</p> <p><i>GIZ is a federally-owned enterprise that supports the German Government in achieving its objectives in the field of international cooperation for sustainable development. GIZ mandated ICON Institute Consulting Group to implement this component of the overall programme (www.icon-institute.de)</i></p>

Date from - Date to	Location	Company	Position	Description
04/2021 – 03/2023	Hanoi, Vietnam	USAID / IESC	Senior Advisor	<p>Senior Advisor with the LinkSME project in Vietnam. This 5-year, USD 25 million project was financed by USAID and implemented by IESC. The project strengthens the capabilities of small and medium enterprises (SMEs) to meet the demands of international markets, such as technology, sustainability, traceability, quality, etc. It provides capacity development and support services through intermediary organisations in Vietnam, such as business associations, manufacturing support centres and SME promotion agencies, towards a systemic change in the market. Focus on the metal, electronic, agro-processing, textile and garment, and wood products sectors. Intervention areas include digital transformation, access to finance, business support systems and supply chain development.</p> <p>As Senior Advisor, assuring the quality of work and support the project team and partner organisations in applying a Market Systems Development approach. This includes the development of intervention strategies and implementation approaches, coaching of project staff and consultants, and supporting the process of engaging lead firms. Additionally, advise the project in developing and rolling out its planning, monitoring and evaluation system.</p> <p>Concurrently, Chair of the Supervisory Board of the Ready for Export in Vietnam programme, which is financed by RVO (Netherlands) and implemented by the Dutch Business Association Vietnam.</p> <p><i>USAID mandated IESC is the International Executive Service Corps, a non-profit organisation based in Washington and engaged in consultancy dedicated to inclusive, sustainable economic growth (www.iesc.org).</i></p>
03/2020 – 02/2021	Addis Ababa, Ethiopia	GIZ / EU / Integration	Team Leader	<p>Team Leader of the “Skills development for workforce in and around integrated agro-industrial parks in Ethiopia” project, which is implemented by Integration, a German management consulting firm and financed by the EU. The project is part of the larger GIZ, EU and AICS-supported action “Promotion of Sustainable Ethiopian Agro-industrial Development (PROSEAD)”, applying EU project cycle management procedures.</p> <p>Focus on developing and rolling out short-term and long-term vocational training programmes for the agro-processing industry in close cooperation with TVET colleges and polytechnics as well as private training providers. Ensure consideration of cross-cutting themes, including gender mainstreaming, digitalisation and conflict sensitivity. Development of comprehensive training modules, trainers’ training and engagement of the industry in cooperative training models. Managing a team of national and international long- and short-term experts.</p> <p><i>GIZ is a federally-owned enterprise that supports the German Government in achieving its objectives in the field of international cooperation for sustainable development. GIZ mandated Integration Consulting Group to implement this component of the overall programme (www.integration.org)</i></p>

Date from - Date to	Location	Company	Position	Description
02/2018 – 02/2020	Dhaka, Bangladesh	GIZ / GFA	Team Leader	<p>Team Leader of the “Sustainable Economic Growth Strategies” project, which is implemented by GFA Consulting Group and is part of the Textile Industry Cluster Programme of GIZ in Bangladesh. The project cooperates with the five major Readymade Garments and Leather business associations. The focus is on developing a market system for sustainability reporting at sector and at company levels. Capacity building of the business associations and a network of 17 national consultancy firms contributes to systemic and sustainable changes. Business associations are supported in drafting roadmaps for sustainable economic growth that guide them in facilitating increased compliance with social and environmental standards by the industry. Also, the Leather Sector Policy was formulated in cooperation with the Ministry of Industries. During the inception phase, sector reviews, including interviewing over 85 stakeholders, resulted in two comprehensive sector reports.</p> <p>Responsible for the overall project implementation, adherence to international best-practices, quality assurance in all processes and meeting the project’s targets. Leading a team of 4 full-time staff and a pool of 10 national and international short-term experts.</p> <p><i>GIZ is a federally-owned enterprise that supports the German Government in achieving its objectives in the field of international cooperation for sustainable development. GIZ mandated GFA Consulting Group to implement this component of the overall programme (www.gfa-group.de)</i></p>
10/2017 – 01/2018	Ho Chi Minh City, Vietnam	Good Works Initiative - WOO	Director Impact and Quality Assurance	<p>Good Works Initiative (GWI) owns and promotes the WOO brand and offers lifestyle products consisting of home fragrances, personal care products, fashion accessories and wearables. WOO is a value-chained business model that encourages global inclusiveness to bridge the gap between rich and poor, with the overall target to reach 1 million people in 10 years. All WOO products are designed, sourced and created in ethical ways.</p> <p>Responsible for the development and overseeing the implementation of an impact and quality assurance system, ensuring that WOO products adhere to the SDGs nr 8 (Promote inclusive and sustainable economic growth, employment and decent work for all) and 12 (Ensure sustainable consumption and production patterns). GWI received €1.5 million in financial support from the Netherlands government through RVO.</p> <p><i>GWI is a global social enterprise with its production operations based in Vietnam (www.woocares.com)</i></p>

Date from - Date to	Location	Company	Position	Description
04/2014 – 08/2017	Dhaka, Bangladesh	DFID / SDC / Palladium	Team Leader	<p>Working with industry partners and private training providers, the programme seeks to facilitate the training of 100,000 people from disadvantaged groups, including women and the extreme poor. The programme supports private training providers and industry-based training initiatives and raises awareness about the value of skills development among the trainees and industry. It also supports industry skills councils and the development of skills training packages that meet the occupational standards of the industry, as well as supports capacity building of national training consultancy service providers to sustain a long-term development process. The focus is on the RMG (Readymade Garments) and construction sectors. This 5-year programme was financed by DFID and SDC jointly for an amount of £20 million.</p> <p>As Team Leader responsible for the overall innovation, development and impact of the programme. This includes technical leadership that contributes to intervention design, monitoring of deliverables and meeting targets at quality standard. And above all, responsible for successful development of replicable TVET market systems based on M4P (markets for the poor) approaches and aligned with the DCED Standard for Results Measurement. Activities include 1) management of the permanent project team of 25 professionals and 7 support staff and a pool of short term international and national consultants, 2) relationship management with development partners, government and industry representatives, 3) representation of the programme at policy level and development of Industry Skills Councils, 4) supervise programme administration, 5) supervise financial management and procurement, and 6) planning, quality assurance and progress reporting. The programme got three consecutive A-ratings during DFID annual reviews.</p> <p><i>DFID (Department for International Development, UK; now named FCDO) mandated Palladium to implement the programme. Palladium International is a Palladium Group company with hub-offices in Brisbane, London, Dubai and Washington (www.thepalladiumgroup.com)</i></p>

Date from - Date to	Location	Company	Position	Description
01/2012 – 12/2013	Lagos, Nigeria	DFID / Coffey International Development	Team Leader GEMS2 Managing Director Coffey Nigeria	<p>GEMS-2 was a GBP 13.5 million project of DFID in Nigeria. It aimed to improve the performance and inclusiveness of SMEs in construction sector market systems for vocational training (including a large Modern Apprenticeship Training Programme), labour procurement, input supply chains, business services and advocacy. The overall objective was to increase the income of 110,000 artisans and create 20,000 full-time equivalent jobs with a VfM (value for money) factor of 4.7.</p> <p>As team leader (managing 15 national and international experts), responsible for strategic orientation and application of M4P principles. The programme included a GBP 3.5 million challenge fund for private sector vocational training initiatives. Directly involved in the design and mainstreaming of a monitoring and evaluation system aligned with the DCED Standard for Results Measurement.</p> <p><i>DFID (Department for International Development, UK) mandated Coffey International Development to implement the project. Coffey is an international consultancy firm with its head office in Australia with over 1,400 full-time consultants employed. Its UK-based office is in charge of the GEMS-2 project.</i></p>
06/2011 – 12/2011	Addis Ababa, Ethiopia	Fair & Sustainable Consulting	General Manager	<p>Responsible for the management and further growth and development of Fair & Sustainable Ethiopia, a locally-established foreign-owned consultancy firm engaged in agricultural development. The organisation became a valued partner for development cooperation agencies and programmes in the areas of agricultural value chain development, M4P, food security, BDS market development, private sector investment, skills development, M&E, and trade promotion. Activities focused on SME development and included value chain analysis (oil seeds, bamboo), business development advice, product development, strengthening of Farmer Interest Groups, B2B linkage development and development of M&E systems. Clients include WUR (Wageningen University), DGIS (Netherlands Development Aid), Agri Pro-Focus, Africa Juice, Scope-Insight and Terrafina. Acted as the country representative for APF (Agri-Pro Focus), a Netherlands agricultural development network focussing on 12 African countries.</p> <p><i>Fair & Sustainable Ethiopia is a private sector consultancy organisation for agriculture development owned by the Netherlands NGO called ICCO. It gives advice and develops training in value chain, business and organisational development for Ethiopian NGOs, producer organisations, companies and government (www.fairandsustainable.nl)</i></p>

Date from - Date to	Location	Company	Position	Description
